

**Medalcraft Mint**  
**Green Bay, WI**  
**2/21/2017**

We are expanding our Toolroom and need a qualified individual **CNC Programmer/Operator** to join our team!

Main duties will include:

- Properly set up our four CNC machines for efficient cutting of die blocks and optimization on each machine.
- Proactively troubleshoot for errors, and notify Die Engraving team of any problems and when die is completely cut.
- Program and operate our two Hurco's on the cutting of unique shapes and medals.
- Assist with the operation and programming of our new EDM machine.
- Proactively sharpen tool as necessary.
- Other related activities related to the toolroom, such as:
  - Turning & keying of the dies
  - Building trim tools
  - Building piercing tools
  - Lathing of dies and other medals
  - Creating fixtures for machining

Experience and skills needed:

- Machine operating experience and a minimum of 2-3 years with CNC's.
- A degree in Machine Tool or CNC required.
- The ability to understand G-code and use cutter comp.
- An understanding of Mastercam or Gibbscam.
- The ability to lift 10-50 pounds throughout the shift and stand for longer periods of time.
- A positive attitude and the ability to work well as a team, and help in other areas if needed.
- Strong attention to detail and an eye for quality.

Medalcraft Mint is the leader in our industry. We pride ourselves by being a USA-made company, with high quality and quick turnaround time, and our employees are proud of who we are and what we make! Medalcraft offers competitive wages, a flexible working environment, many opportunities to be involved and career advancement.

This is a first shift position and needs to be filled quickly!
