

Johnsonville Sausage Job Posting

Direct Hire Electro-Mechanical Technician Sheboygan Falls Location

Why This Is A Great Job For A Person Who Wants To Accept Nothing Less Than Personal Greatness:

You will be directly involved in the Reliability and Maintenance of the equipment and processes we use to produce our great tasting sausage. This position will not only be involved in maintaining current equipment, but it will allow you to apply Reliability Centered Maintenance (RCM) techniques and concepts on our way to helping Johnsonville become the "Best Company in the World."

Why Johnsonville?

- \$21.22-30.81 pay range
- \$1/hr shift premium for 2nd and 3rd shift
- Immediate eligibility for monthly bonus program, potentially adding on average \$3/hour to your hourly wage
- Outstanding insurance package including medical, dental, vision & prescription drug coverage
- Opportunity for growth

You get to:

- Apply RCM techniques to improve the performance of a variety of production equipment
- Perform maintenance of utility equipment
- Troubleshoot electrical and mechanical problems on various production and utility equipment and apply RCA techniques to improve and eliminate future problems
- Work on projects (i.e. machining, fabrication, Capital projects and working with outside vendors)
- Help gather information to create technical equipment data for development of preventative maintenance information for SAP
- Assist with new equipment installation and/or equipment relocation
- Maintain facilities and equipment to meet Meadowside, OSHA and U.S.D.A. standards
- Be part of teams that implement ideas to improve uptime of plant equipment through equipment modifications, layout adjustments, and general machine maintenance
- Member must be highly motivated with high expectations
- Preventive maintenance of all plant equipment
- Maintain/monitor inventory system for plant and utility equipment.
- Improve uptime on plant equipment through machine modification, layout adjustments, and general machine maintenance.
- Maintain all utility areas in a neat/orderly fashion.
