

# Career Opportunity

## BEMIS

# Electro Mechanical Technician

## ROLE OVERVIEW

An Electro Mechanical Technician supports maintenance of all machinery in the facility.

## WHAT YOU GET TO DO

- Responsible for following all plant and department specific safety rules, procedures, and programs. Wearing all required personal protective equipment for all plant, department, and task specific requirements.
- Review all SDS's for chemicals prior to initial use.
- Responsible for reporting all injuries, near misses and property damage incidents to the Shift Supervisor prior to the end of the shift on the day of the incident.
- Provides daily maintenance for the plant, performs mechanical, electrical, and preventive (PM) maintenance functions.
- Troubleshoot and repair electrical/electronic systems.
- Troubleshoot and maintain pneumatic, hydraulic, and mechanical systems.
- Repair circuit boards to component level.
- Repair pumps, blowers, drives, heaters, dies, gearboxes and PLC's.
- Disassemble, clean and reassemble production machinery.
- Comply with all 5S and CI initiatives (Cross Training, moving to the work).
- All other duties as assigned by supervisor or management.

## WHAT WE VALUE

- Ability to read blueprints and schematics.
- Ability to use various hand tools, multi-meters, computers and oscilloscopes.
- Detail oriented, well organized and able to function in a team environment under deadlines.
- Capable of PLC programming using Allen Bradley.
- Excellent written and verbal communication skills.
- Ability to handle and prioritize multiple tasks and work in a team environment.

## WHAT WE WANT FROM YOU

- Associates Degree in Electro-Mechanical preferred.
- Formal training and/or education in electrical/electrical systems (including PLC's) preferred.
- 2-5 years' experience in electrical or mechanical maintenance of plant production machinery and support systems preferred.

## SCHEDULE

- Rotating 12 hours
