1139 S. Sunnyslope Drive • Mount Pleasant, WI 53406 • 262 783-8000

Position: Electrical Controls Technician

Description:

Established in 1974, Engineering Specialists, Inc. is one of Wisconsin's Premier Control Systems Integrators. We Design, Build, and Install Custom Automation Equipment and Control Systems while Implementing MES Systems using the latest Industrial Automation Technologies. We work with hundreds of Local and International Companies to Integrate their Factory to be more competitive in their areas of Expertise.

As a member of the production team you will be responsible for wiring electrical control panels, mechanically assembling, and electrically wiring custom automation equipment. You will be responsible to complete assigned tasks meeting production schedule, company and customer expectations on their assigned projects while maintaining a safe work environment and continuously improving quality and throughput.

Requirements:

The ideal candidate will be able to build control panels, wire machines and assemble electrical components and systems utilizing electrical schematics and drawings with minimal supervision. Must be capable of meeting due dates, maintain a clean and orderly work space, and follow safety regulations. Responsible for verifying completed work meets the project specifications and quality standards. Experience with mechanical, pneumatic and hydraulic components and systems is a benefit.

Salary: \$16.00 – \$25.00 per hour
