OPPORTUNITY:

5 March 2024

Welder/Fabricator-CNC laser & brake operation

We are looking for a motivated, experienced welder/fabricator to join our company. As part of our team, you construct and manufacture metal parts and products, taking particular care to produce quality parts within specification. You follow blueprints, determine material measurements and materials list, and take responsibility for the quality and accuracy of your work.

Welder Fabricator Duties and Responsibilities:

- Prep, fabricate and manufacture metal parts in a team environment.
- Follow blueprints to ensure location and exact specifications of product output. Produce clean welds, ensuring strength and tolerance of welds.
- Completing job per specified time, along with associated paperwork and inspection forms. Maintain good housekeeping.
- Operate/program CNC laser, press brake and other shop equipment.

Welder Fabricator Requirements and Qualifications:

- 3+ years' experience OR technical school certification with mild steel, stainless and aluminum welding fabrication.
 - Successful completion of an internal welding test.
 - May require MIG / TIG welding in any position.
 - Knowledge of fixturing, machine parameters (amps, volts, gas, etc.), and wire/filler selection. Basic ability to perform computer functions as they pertain to the job.
 - Knowledge of painting and finishing
 - Proficient with common welding tools, procedures, metal fabricating, grinding, and finishing. Ability to stand, crouch, and occasionally lift heavy items.
 - Blueprint reading, fillet gauge reading, and knowledge of common welding symbols.
- High School Graduate or HSED

Benefits:

401(k) with company match

Paid vacation time, paid holidays, no weekends

Option for 4-10 hour shifts or 4-9 hour shifts and 4 hour Fridays.

AM shift

Overtime available at times
